

# Western Blocks

## THE NEW WESTERN BLOCK LINE

If today's technology was available over a century ago . . .  
 . . . This is the way Western Blocks would have been produced.

- Bolt style center pin with lock washer and staked nut
- No straps
- Laser burned side plates
- Every block permanently stamped with the following:
  - Working Load Limit
  - Block Size
  - Rope Size

<p><b>385 Wood Shell Manila Rope Snatch Blocks</b></p>  <ul style="list-style-type: none"> <li>• New stock numbers</li> <li>• New higher working load limits</li> <li>• Painted or galvanized steel with replaceable wood bumpers</li> <li>• Laser cut side plate opens for insertion of rope.                             <ul style="list-style-type: none"> <li>- Incorporates exclusive bolt retaining spring to assure no lost bolts, plus utilizes secondary retaining pin.</li> </ul> </li> <li>• Bronze bushed sheaves with larger bearing diameter for extended block life.</li> <li>• Lubricated center pin</li> <li>• 10" and 12" sizes utilize steel sheaves</li> </ul>	<p><b>301 - 302 - 303 Steel Shell Blocks for Manila Rope</b></p>  <ul style="list-style-type: none"> <li>• Same stock numbers</li> <li>• Same working load limits</li> <li>• Same fittings available</li> <li>• Laser cut side plates</li> <li>• Galvanized steel</li> <li>• Grade 5 bolts secured with lock washers and staked nuts</li> <li>• Bronze bushed sheaves with larger bearing diameter for extended block life</li> <li>• New style hanger for fitting attachment</li> </ul>	<p><b>261 - 262 - 263 Standard Steel Shell Blocks for Manila Rope</b></p>  <ul style="list-style-type: none"> <li>• Same stock numbers</li> <li>• Same working load limits</li> <li>• Same fittings available</li> <li>• Laser cut side plates</li> <li>• Painted steel</li> <li>• Grade 5 bolts secured with lock washers &amp; staked nuts</li> <li>• Bronze bushed sheaves with larger bearing diameter for extended block life.</li> </ul>
