

# Real Life Solutions

*The new standard does not require the rigger to be certified. The rigger must be qualified.*

*A qualified rigger is a rigger who meets the criteria for a qualified person.*

*Employers must determine whether a person is qualified to perform specific rigging tasks.*

*In order to assist the everyday users of our rigging products in their endeavors to qualify riggers in their employment, as in the past, we make our rigging training available free of charge.*

## Do Your Riggers Need to be Qualified?

Yes in many applications. As of November 8, 2010 employers must use qualified riggers during hoisting activities for assembly and disassembly work (1926.140(r)(1)).

Additionally, per 1926.1425(c), qualified riggers are required whenever workers:

- Are within the fall zone, and
- Hooking, unhooking or guiding a load, or
- Doing the initial connection of a load to a component or structure.

## Who Can Be A Qualified Rigger?

A qualified rigger is a rigger who meets the criteria for a qualified person. Employers must determine whether a person is qualified to perform specific rigging task. Each qualified rigger may have different credentials or experience. A qualified rigger is a person that:

- Possesses a recognized degree, certificate or professional standing, or
- Has extensive knowledge, training and experience, and
- Can successfully demonstrate the ability to solve problems related to rigging loads.

## Does Crosby Offer Rigging Training?

Yes, Crosby has long been recognized as an industry leader in providing quality products and application training to the users of our equipment. That is why we are making this required training available absolutely free to the everyday users of our rigging products\*. In order to assist the everyday users of our rigging products in their endeavors to qualify riggers in their employment, as in the past, we make our rigging training available free of charge.

\* Some limitation apply check the website at [crosby.com](http://crosby.com) for qualifications.

## Will Attending A Crosby Seminar Make Someone A Qualified Rigger?

Crosby cannot make the determination of who is a qualified rigger, only their responsible employer can make that decision. However, the time spent in our seminars and certificate of training received goes a long way in helping to prove rigger qualifications.

## Why Choose Crosby Training?

There are many good training companies in the industry. At Crosby we feel that because of our intimate knowledge of the regulations and extensive product knowledge that Crosby rigging training is an exceptional opportunity for the qualification of your riggers.

### Consider this when you choose a trainer for your employees:

**Industry Reputation** - Over the past 20 years, Crosby has provided training to more than 250,000 riggers, trainers and supervisors (over 1 million combined hours) on the proper use of rigging hardware.

**Knowledge of Standards** - Crosby's reputation as a manufacturer has allowed us to be involved in drafting many of the standards that affect our industry. This involvement provides us the level of knowledge required to design our training program around the OSHA, ASME and world standards, making sure our trainees receive the level of training required in their endeavors to be qualified riggers.

**Varied Training Courses** - Crosby provides a wide variety of training courses designed to meet the various needs of the end users of our products.

### Knowledgeable Trainers -

- Most Crosby trainers are NCCCO Level 1 Certified Riggers
- Each trainer is a factory trained Crosby employee with unparalleled knowledge of rigging hardware

**Crosby issues Certificate of Achievement to all seminar attendees. This certificate provides proof of attendance as a means to document one's education on the subject matter provided.**

**Crosby offers Train the Trainer type courses, (in selected cities) to assist companies in their training efforts to qualify riggers in their employment.**

Crosby also offers a two-day Rigging Trainer Development course at no charge to full line Crosby Distributors and end users of our products. Day one is designed for those product users who need fundamentals of rigging only. Day two is designed for trainers or individuals that need more advanced information. Seminar materials received at no charge:

- PowerPoint files for use by end user trainers in their classroom training on fundamentals of rigging using Crosby rigging hardware in conjunction with slings.
- All day one attendees receive a certificate for attending the "Fundamentals of Rigging" class and successful day two attendees receive a certificate stating that they are authorized to use Crosby training materials for 48 months from date of issue.
- Successful day two attendees also receive a certificate stating they have earned 1.4 "CEUs"
- Authorization to purchase Crosby classroom training materials at discounted rates.
- CD ROMs for computer based rigging training sessions. Those individuals who successfully complete a Crosby CD ROM computer based training program can request a Certificate of Achievement from Crosby for documentation of education achieved.
- CD ROM with PowerPoint files for 30 – 45 minute refresher rigging training sessions.
- All seminar attendees are provided a complete set of training materials at no charge.
- All two-day seminar attendees will receive at no charge "prep" materials for the NCCCO Level I rigger exams.
