

A vertical collage of various Crosby wire rope products. At the top is a black Crosby Cold Tuff socket with 'CROSBY COLD TUFF 5/8 07E' embossed on it. Below it is a red Crosby shackle with a wire rope attached. To the right is a red Crosby shackle with a wire rope. Below that is a black Crosby shackle with a wire rope. Further down is a silver Crosby shackle. Below that is a silver Crosby shackle. At the bottom left are two cans of Crosby Wirelock, one labeled 'WIRELOCK' and the other 'WIRELOCK'. At the bottom right is a red Crosby shackle.

The following services are available through the Crosby **EndTerminationSupport**[®] program.

Inspection/Maintenance Services

At the standard day rates, the following inspection and maintenance services can be provided to your business by our factory trained technician.

- *Thorough inspection of National swaging machines.*
- *Thorough inspection of National Swage dies, with installation of RFID record keeping and documentation technology.*
- *Maintenance services for National swaging machines.*

Training

While at your facility, we can also provide training to your employees in the following areas at no additional cost.

- *Swaging training, with certificates.*
- *Socketing and Wirelock[®] training with certificates.*

Why is the Crosby EndTerminationSupport[®] Program important to you?

- **Inspection.** *Your business, as a company that focuses on the supply of wire rope slings and assemblies, depends on having swaging machines and swaging dies that are regularly inspected and properly maintained to ensure that they perform as expected.*
- **Maintenance.** *Down time, reduced production and unscheduled maintenance cost your company money.*
- **Training.** *The specialized nature of the wire rope products that you manufacture requires that you employ a well trained and highly knowledgeable team of riggers. Properly “factory trained” operators will result in improved efficiencies.*
