

Crosby | feubo®

World-class mooring solutions

the Crosby group®

Tough working environments require solutions you can trust

Who we are?

The Crosby Group is with its Crosby Feubo product range a global leader in design and manufacture of high integrity mooring connections and components for all floating assets. Headquartered in The Crosby Group's center of excellence in Hattingen, Germany, and with the support of a global network of offices and service centers Crosby | Feubo provide safety critical solutions to both the Oil and Gas as well as the renewable energy markets.

Engineering and Design

With our own dedicated team of engineers working closely with the mooring industry for over 3 decades we use advanced engineering methods of 3D modeling, Finite Element Analysis (FEA) and fatigue strength simulations to design and develop a range of standard and tailor-made products for our clients.

Manufacturing

We offer a complete and quality guaranteed manufacturing process including - Casting, Forging, Machining, Heat treatment, Assembly, Testing and Finishing.

Testing and Certification

Our German center of excellence boasts the capability in conducting static testing of mooring chain and components of up to 60.000 kN and dynamic testing of up to 7000 kN, including the capability of fatigue testing in simulated marine environments.

All processes from design/engineering, manufacturing and test/certification comply with and are fully certified by the LRS, DNV, ABS and BV Class Societies.

Reliability, in everything we do. Uncompromised quality leads to higher performance and lower risks.

Standard range

Mobile and Temporary Mooring

- Kenter Joining shackles - Trident, Raptor, Ndur and HFL
- Kenter Anchor shackle
- DACL (Pear) links and DCCL (connector links)
- Trilinks
- Chasing equipment
- Safety Pin shackles

Long Term Mooring

- H Links
- Anchor shackle
- End Joining shackles
- Special D shackles
- Installation links

Innovation - the way forward

Always thinking of tomorrow has been a proven success within The Crosby Group. From optimizing the design of standard products, an example being the evolution of the High Fatigue Life (HFL) range of fittings, or working on client specific innovation, we are constantly looking to raise the bar.

The Crosby Group is a global leader in the innovation, manufacturing and distribution of products and services used to make lifting and load securement safer and more efficient, with premier brands such as Crosby, Gunnebo Industries, Crosby Straightpoint, Crosby BlokCam, Crosby Airpes, Acco, McKissick, Crosby Feubo, Trawlex, Crosby Lebus and Crosby IP.

With global engineering, manufacturing, distribution and operations, the company provides a broad range of products and solutions for the most demanding applications with uncompromising quality that exceed industry standards.

The Crosby Group, with its team members around the world, provides an unparalleled training program supported by industry experience dating back hundreds of years, creating safer work environments for people everywhere.
