

## Product Update

Effective date: November 1, 2023

## UKCA markings on product

To Whom It May Concern,

You may receive a limited number of Crosby and Gunnebo Industries products marked or labeled with a UKCA marking, like shown below. This marking indicates conformity with the applicable requirements for products sold within the UK, similar to a CE marking. It does not represent where the product was manufactured.

The UK government has recently suspended their requirements on the usage of the UKCA marking, so you may see a mix of Crosby and Gunnebo Industries products with and without the UKCA marking. Both variations are sellable in the UK and global markets. **Red circle = UKCA marking**

If there are any questions, please don't hesitate to contact me or your local Kito Crosby sales manager.

With best regards,

Fernanda Zamorano  
Global Product Manager
